

**Knowledge Check** 

- A. NumPy is used for building dynamic websites.
- B. NumPy is used to perform mathematical operations in science and engineering applications.
- C. NumPy is used for image and speech recognition.
- D. NumPy is used for building mobile applications.

### Knowledge Check

What is NumPy and what is it used for?

- A. NumPy is used for building dynamic websites.
- B. NumPy is used to perform mathematical operations in science and engineering applications.
- C. NumPy is used for image and speech recognition.
- D. NumPy is used for building mobile applications.

The correct answer is **B** 

NumPy is used to perform mathematical operations in science and engineering applications.

2

- A. ndim, shape, size, dtype, itemsize
- B. ndim, shape, dtype, data, index
- C. ndim, size, dtype, itemsize, data
- D. ndim, index, dtype, itemsize, shape

### Knowledge Check

### What are the key attributes of ndarray?

- A. ndim, shape, size, dtype, itemsize
- B. ndim, shape, dtype, data, index
- C. ndim, size, dtype, itemsize, data
- D. ndim, index, dtype, itemsize, shape

The correct answer is A

The key attributes of ndarray are ndim, shape, size, dtype, itemsize.

# Which of the following is used to change the dimension of an array?

- A. ndarray.reshape
- B. ndarray.transpose
- C. ndarray.data
- D. ndarray.flatten

### Knowledge Check

3

## Which of the following is used to change the dimension of an array?

- A. ndarray.reshape
- B. ndarray.transpose
- C. ndarray.data
- D. ndarray.flatten

The correct answer is A

ndarray.reshape is used to change the dimension of an array.
